\$30 per day fuel charge, \$420 maximum

STATE OF THE ART

The raised steering station offers unmatched 360° visibility. All sheets and halyards are led back to the helm station. Even a reduced crew can easily maneuver the Lagoon 440.

The deck layout is designed for ease of use, safety and comfort. The ultra-wide helm seat is the ideal location for the captain and crew to enjoy sailing, while the innovative forward cockpit is a choice location for relaxing moments while sailing or at anchor.

The hull design is powerful yet forgiving, bow volume and weight distribution have been carefully balanced to limit the pitching motion. The bridgedeck's gull-wing shape is a major enhancement and allows smoother passage through the waves ! An optimized sail plan plus efficiently designed keels and rudders make this new Lagoon 440 a fast seaworthy, comfortable and elegant catamaran.

The galley features a large serving shelf extended towards the cockpit, a countertop surface worthy of one found in a house, and storage everywhere, including a big cookware locker.
