### STATE OF THE ART

The hull design is powerful yet forgiving, bow volume and weight distribution have been carefully balanced to limit the pitching motion. The bridgedeck's gull-wing shape is a major enhancement and allows smoother passage through the waves ! An optimized sail plan plus efficiently designed keels and rudders make this new Lagoon 440 a fast seaworthy, comfortable and elegant catamaran.

The raised steering station offers unmatched 360° visibility. All sheets and halyards are led back to the helm station. Even a reduced crew can easily maneuver the Lagoon 440.

The deck layout is designed for ease of use, safety and comfort. The ultra-wide helm seat is the ideal location for the captain and crew to enjoy sailing, while the innovative forward cockpit is a choice location for relaxing moments while sailing or at anchor.

The galley features a large serving shelf extended towards the cockpit, a countertop surface worthy of one found in a house, and storage everywhere, including a big cookware locker.
